

Farm Workers Resolution

Whereas we farm workers of the United States are unorganized and because of this unorganized condition we are denied the benefits and protection of the National Minimum Wage Law which gives the employers a tremendous advantage over the workers, the employers are permitted to set what wages they see fit to pay us for our labor; and

Whereas over 400,000 people have been imported from other countries to do farm work at a time while there are over 2,000,000 workers unemployed in the United States; and

Whereas many employers are giving the farm jobs to the imported people which is creating more unemployment in our country and causing great hardship on we farm workers and many small business people of our communities: Therefore be it

Resolved, That we, farm workers assembled in the City of Stockton, California the 29th day of September 1956, form the Farm Workers Committee for Organization and urge the leaders of Organized Labor to organize we farm workers of the United States; and be it further

Resolved, That we work for the passage of legislation as follows:

1. Stop importing people from other countries to do farm work. All farm jobs to be given to the unemployed workers of our country.
2. National Minimum Wage coverage for farm Workers and raise the Minimum Wage to \$1.25 per hour.
3. Unemployment insurance coverage for farm workers.
